

# Guaranteed until 2019!

*Delta's unique 10 year guarantee on  
Air to Air Heat Pump systems.*

**Eco-friendly heating and cooling from Delta.  
Better for the environment. Better for your pocket.**

## Get set for summer

With Delta's energy efficient heating and cooling heat pump systems.

**Cooling air conditioning in Summer.**

**Incredibly efficient heating in Winter.**

**With Delta you're in complete control!**

## A real breath of fresh air!

More and more people are enjoying being in complete control of their environment by installing a Heat Pump from Delta Climate Control.

For homes, pubs, offices, shops, clubs, caravans or village halls, heat pumps are the next big thing in energy efficient heating and cooling and we are big fans of them.

In fact we think they're so efficient and so reliable that we are offering new customers a 10 year guarantee on them. When you consider most other companies only offer a year, or three at a push, you'll realise just how much we think of these systems.

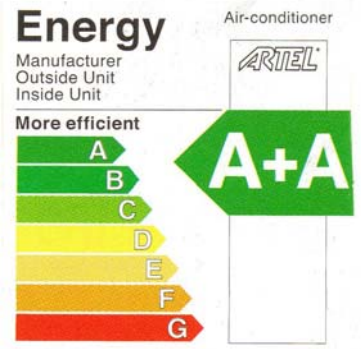

As your local, independent heating and cooling experts, you can trust Delta Climate Control to provide advice, assistance, competitive prices, unbeatable service and systems that deliver.
